

Durham Eagles Football is dedicated to creating an environment of discipline, self-respect, and success to aid in the academic, athletic and social success of the student-athletes.

The Durham Eagles have two main goals. Their first goal is to mentor and coach at least 250 children in 2010. The Eagles expect to reach this goal, although another afterschool football program has started in the same neighborhood. The Eagles second goal is to complete this mentoring and coaching at a cost of \$150 or less per athlete. The Eagles will know their cost per child at the end of the year, but expect to come in below budget.

During the first quarter the Eagles held training programs for their volunteers. Their basketball team were the League Champions.
